

YOU WANT TO MAKE A DIFFERENCE?

At United Water Delaware, the search is on to take service to the next level. **You** may be just the person to join our newly forming Customer Advisory Panel and help drive this exciting dynamic. We want to engage, inform and interact with **you**, the people and communities we serve.

Our Customer Advisory Panel (CAP) will give **you** a firsthand opportunity for input and feedback, to learn and discuss, and be involved as a valuable link between your community and your drinking water provider. **You** can make a difference.

The CAP is designed to provide a lively forum, meeting for a couple of early evening hours, a few times a year. It will bring **you** together with fellow stakeholders, to share ideas and information and help ensure success in delivering excellence.

MAKING A DIFFERENCE

As part of the CAP, **you** will help chart a course, develop areas of interest, and help forge positive paths forward. Whether it's a current or future initiative, existing or emerging issue, challenge or opportunity, **you** can make a difference.

If **you** desire to become part of United Water's CAP, please let us know now by telephoning or emailing your name, address and phone number to us at **302-252-3013** or **thomas.hubbard@unitedwater.com**.

We will send **you** a brief questionnaire to assist us in assembling a CAP that reflects our broad customer base. We thank **you** in advance for your interest and look forward to hearing from you soon.
