

WATERWAYS

April-June 2009

A BRAND > NEW LOOK

New Logo

At United Water, we're proud to provide essential services right here in our community — and we're equally proud to be part of a global team that's committed to protecting our planet. That's why we'll soon be adopting a new logo, shown above, which more closely aligns us with our international parent company, SUEZ ENVIRONNEMENT.

Our local team is still comprised of your friends and neighbors but you'll see a new look on our uniforms, company vehicles and other materials.

So whether it's around the corner or around the world, United Water remains committed to delivering excellent water quality and service, to being a good corporate neighbor and to safeguarding our precious natural resources.
