## We'll Visit You

Questions about conservation? To quench your thirst for information on water-related issues, United Water's Speakers Bureau offers talks for community groups and schools. For more information, call us at 732-349-0227 x3042, or visit us on the web: [www.unitedwater.com/](http://www.unitedwater.com/)

## Conservation Measures

You can play a role in conserving water by becoming conscious of the amount of water your household is using and by looking for ways to use less whenever you can. Our new conservation program can help reduce your water use by up to 25 percent. For more information or to purchase a water-saving kit, please visit: [www.waterconservationproducts.com](http://www.waterconservationproducts.com)

## Evapo Transpiration (ET) Program

- **United Water has established a lawn watering education program called ET – short for EvapoTranspiration – to help our customers understand how to keep a healthy lawn without drowning it with water. ET was developed in cooperation with the Rutgers Cooperative Extension and the State of New Jersey.**
- **Based on various weather data and conditions, a daily ET number is set in order that residents can access the daily ET number by listening to WOBBM's morning weather report in the summer months, logging onto United Water's website at [www.unitedwater.com/uwtr](http://www.unitedwater.com/uwtr) or via the Internet at [www.sjrctd.org/public/tomsriver.html](http://www.sjrctd.org/public/tomsriver.html) You can also dial United Water Toms River's ET hotline at 732-349-0227 x3034 anytime after 8:00 am every day.**
- **The ET lawn watering program is easy to use. Residents look for the ET number in the media or call the ET hotline to find out how long, is at all, they need to water their lawn. If they need to water their lawn, then they put down the specified amount of water and they do not need to water for at least three days.**

**Additional water conservation tips are available on the company's conservation website at [www.uwconserve.com](http://www.uwconserve.com).**
